

Workday Introduces Adaptive Decision Intelligence, Bringing Planning Questions, Scenarios, and Decisions Into One AI Experience

Adaptive Decision Intelligence Lets Teams Ask Questions in Natural Language, Explore Scenarios, and Commit Decisions to the Governed Plan – in Minutes, Not Days

NATIONAL HARBOR, Md., May 27, 2026 [/PRNewswire/](#) -- Gartner Finance Symposium/Xpo™ -- [Workday, Inc.](#) (NASDAQ: WDAY), the enterprise AI platform for HR, finance, and IT, today introduced [Adaptive Decision Intelligence](#), a new AI capability in [Workday Adaptive Planning](#). Finance teams spend days pulling data from disconnected systems to provide the answers leadership needs now. Adaptive Decision Intelligence provides a single experience where finance and operations teams can ask questions in natural language, model scenarios in minutes, and commit decisions directly into the governed plan – without spreadsheets, data wrangling, or waiting on the FP&A team to rebuild a model.
